RUCHIRA EDIRISINGHE

UI/UX ENGINEER & GAME DEVELOPER

+94 77 400 9851 // Giriulla, Sri Lanka // ruchira.ed@proton.me
Portfolio: ruchiraedirisinghe.vercel.app
LinkedIn: linkedin.com/in/ruchiraedirisinghe

PROFILE

UI/UX Engineer and Game Developer with 4+ years of experience taking web, mobile and game interfaces from user research and wireframes to production front-end code. I work across Figma, React, Next.js and TypeScript, and Unity with C#, using AI-assisted development to ship polished products faster. Holds a BSc (Hons) in Computer Security from the University of Plymouth, so security and performance are part of every build.

EXPERIENCE

UI/UX ENGINEER & GAME DEVELOPER
747 LIVE (FUNEXTREME TECHNOLOGY LLC) // DUBAI, UAE // AUG 2025 – PRESENT

- Design and build **gamified interfaces** for 747 LIVE, turning standard screens into player-centric experiences.
- Develop games for the platform that boost player engagement and retention.
- Solve UX problems and debug front-end issues, using AI-assisted development (vibe coding) to ship faster.

UI/UX CONSULTANT (PART-TIME)
TREX LABS // NUGEGODA, SRI LANKA // DEC 2025 – PRESENT

- Architect intuitive digital experiences, from user flows to polished, development-ready screens.
- Resolve complex design challenges and turn them into streamlined, buildable solutions with the development team.

CONTRACT UI/UX ENGINEER
RUACH HOLDINGS // SRI LANKA // SEP 2024 – NOV 2024

- Designed the end-to-end UI/UX for **InsiderHub**, a social media platform for creators, mapping user flows and designing interfaces tailored to a local audience.

ASSOCIATE UI/UX ENGINEER
ZUSE TECHNOLOGIES // NUGEGODA, SRI LANKA // NOV 2023 – AUG 2024

- Designed UI/UX for the **Lyceum** projects, including the Lyceum Learning Management System (LMS).
- Supported the UI/UX design of **Project MAGIYA** and created educational games for the company's learning products.

FREELANCE UI/UX ENGINEER, CREATIVE DESIGNER & UX CONSULTANT
SELF-EMPLOYED // SRI LANKA (REMOTE) // JUL 2022 – PRESENT

- Translate client requirements into web and app designs that are ready for development.
- Produce high-quality design renderings and animations to communicate concepts clearly to stakeholders.

AR/VR GAME DEVELOPMENT ENGINEER (INTERN)
PEARSON SRI LANKA // NARAHENPITA, SRI LANKA // JUN 2022 – JUL 2023

- Designed and developed **Project MetaLingo**, an interactive virtual reality application for language learning.
- Won **first place** in Pearson's global inter-company Virtual Reality learning application development challenge.

PROJECTS & CASE STUDIES (VIEW MORE ON MY PORTFOLIO)

CATALOGIE – MOVIES, TV, GAMES & BOOKS TRACKING PLATFORM

Live – open to all users

A live full-stack tracker for movies, TV series, games and books, each tracked its own way. Built and run by a team of three, self-hosted, with 6+ releases since June 2026.

Stack: PostgreSQL, Express, React, Node.js (PERN), strict TypeScript // **Try it:** catalogie.com

LKR P2P RATE – ANDROID APP & HOME-SCREEN WIDGETS

Open source

Shows the USDT to LKR P2P rate you can actually get for your order size, plus exchange rates for 300+ currencies, on resizable home-screen widgets with charts, a converter and rate alerts. No ads, no tracking.

Stack: Kotlin, Jetpack Compose, Jetpack Glance, Material 3, SQLite, WorkManager // **Source:** GitHub (MIT licence)

FUNEXTREME TECHNOLOGY LLC – WEB & MOBILE UI DESIGN

A corporate B2B platform for a global gaming-technology firm, balancing the energy of gaming with enterprise credibility.

747 SOCIAL – SOCIAL MEDIA PLATFORM, WEB & MOBILE UI DESIGN

A web app that blends a social network with an interactive casino floor, for desktop and mobile.

VOID ARMADA – BATTLESHIP GAME, GAME DESIGN & DEVELOPMENT

A space Battleship game built solo for mobile and browser, with AI opponents and real-time online multiplayer on a server-authoritative design that prevents cheating.

Stack: Unity 6, C#, SignalR

PHURL – PHISHING URL DETECTION & AWARENESS PLATFORM

A web platform that uses machine learning (AI/ML) to detect phishing websites and raise awareness of online safety.

EDUCATION

BSC (HONS) COMPUTER SECURITY – SECOND CLASS

University of Plymouth (UK), studied at NSBM Green University // Sri Lanka // Dec 2020 – Dec 2023

SKILLS

UI/UX Design: User research, Wireframes, Prototyping, User flows, Gamified UI, Usability & accessibility

Design Tools: Figma, Framer, Adobe Photoshop, Illustrator, After Effects, Spline
